Introduction

Forms of Distance Learning (abbreviated as DL) methods of non-formal education in the national education system. DL is an educational process, in which the majority of people, there is a discontinuity between teachers and learners in terms of time and space. DL learners in the form of self-taught mainly through materials such as textbooks, video tapes, audio tapes, CD-ROMs, computer software, using the private audiovisual media, radio and television, the combination of multimedia communications, Internet with the organization of the University. DL is maily self-study, requires learners to self-discipline, persistence and with highly-determination to complete their academic program

The goal of DL is creating learning opportunities for all, aimed at improving people's knowledge, contributing to the training of human resources to meet the needs of socio-economic development of the country. The subjects of DL is all the people who has needs in learning, especially workers and people in areas with socio-economic conditions as difficult as mountainous, remote and isolated.

Distance learningis a training method has been implemented in many countries, spectrum knownly all over the world under different forms and more and more develop thanks to the technical achievements of audio-visual, telecommunications and information technology.

Distance learningProgram diploma volume, content and structure of knowledge equivalent to the formal program of study at the school level. Diploma of forms of Distance learning by the institution competent under the national education system, the State shall ensure the legality and values used as qualification of the type of other education.

From the urgent needs of society and the development trend of distance learning methods, distance learning centers - University of National Economics was established by Decision No. 24 / QĐ-TCCB dated 04 May 01, 2006, Rector of the national Economics University. The main functions and tasks of the Center is to organize and develop training methods for every subject distance learning needs to have a degree of specialized training under the regular system of schools.
